DESCRIPTION

This unique example has spent much of its life in storage as part of a collection. I purchased it in 2017 with a confirmed mileage of 16,626 and then spent time correcting various issues arising out of its static existence. In 2020 it went to KWE where it underwent a £23K full recommissioning and update covering refit of rear screen, bodywork repairs, full respray with nano-ceramic coating, re-chrome of bumpers, cavity wax and underseal, renewed fuel rail, new hoses and cleaned injectors, fuel hoses upgrade to E15 resistant, new bushes, silicone brake fluid, new dampers and front discs / pads. A KWE recommended Kenwood bluetooth & DAB radio is also installed. With mileage now 21,438 this car represents a near perfect example.
