**DESCRIPTION**

This very rare and highly collectable manual DB9 is one of only 157 manufactured. It can only go up in value!! First registered May 2008 (08 Reg) this beautiful DB9 Coupe with just 38,000 miles recorded has the rare and desirable six-speed manual Graziano Transmssioni gearbox; this provides an improved 0-60 mph acceleration time of 4.7 seconds when compared with the automatic variant, (5.0 Seconds) and naturally appeals to the more enthusiastic driver. Finished in gleaming Onyx Black with Obsidian Leather and Ferrari Rosso stitching and Piano black veneers, it is without doubt a stunning car. Most importantly, this DB9 is fitted with the factory Sports Pack where spring rates are increased by 68 per cent at the front and 64 per cent at the rear, the front anti-roll bar is modified and the dampers revised to support these new suspension characteristics, which in turn reduces the cars ride height by 6mm lowering the centre of gravity. The car's undertray is replaced by a load-bearing aluminium panel that adds the structural stiffness necessary to resist the larger loads created by the suspension modifications. The special five spoke alloys are 1 kilo lighter per wheel than the standard factory fitment and are fitted over contrasting Red Calipers.
