**DESCRIPTION**

According to the Jaguar Daimler Heritage Trust Certificate that accompanies this extraordinary E-Type Series 3 V12 Roadster this car was supplied in September 1973 by Henlys of Manchester. It is a two-owner car with 75,000 miles recorded, which we believe to be correct. This example retains its original colour scheme of Signal Red with Black Leather and features a rare factory Hard-top in Black plus Chrome Wire Wheels. In our opinion this car just looks right, it would be very hard to re-create the mixture of its superb condition with just the right amount of wear to take any "show pony" sharp edges off.
