DESCRIPTION

Monte Carlo in black, 1 of 60 ever made! 1994 Rover Mini Monte Carlo in black with contrasting red and cream interior. The decals are all correct as it came out of the factory and sets this model off really well. Equally the interior is unique to this model and looks fantastic with the black paint work. The seats are very clean and remarkably good considering this mini is nearly 30 years old! The dashboard is showing some discolouration which is not surprising and is still very presentable. It has a responsive engine and smooth gearbox. It feels very special to be driving. The service book has also been signed by Paddy Hopkirk and by his co driver Rob Crellin! Free delivery to your door in my curtain sided van within 200 miles of Tiverton.
