DESCRIPTION

Black metallic XKR. Ivory leather and bur walnut interior. Rebuild featured in JEC owners magazine 9/2016 by XJK. Previously changed timing chain tensioners before I bought her. Recovered seats by Aldridge Trimming. New headlining. Gearbox service carried out and supercharger oil changed. New windscreen and headlining. Stainless semi sport exhaust fitted so sounds wicked and many compliments received about the sound. Extensive body work and paint repairs. New headlamps. Much service and repair history and serviced by specialist independent garages. In very good order following service and MOT in July. amazing performance with 370 bhp supercharged 4.0litre engine. No expense spared since I bought her in 2015.
