DESCRIPTION

RS Cosworth. This is a remarkably special car which is incredibly original in many respects. Our Sapphire Cosworth comes with an impressive spec to include full leather upholstery, air-conditioning and sunroof and the car comes with a very well documented, comprehensive history file. The car comes with an original Ford Sierra handbook. It was MOT tested at 22410 in the UK, but then not tested again when selling the car in 2016 at 22769 miles. During this period, the car was used for a magazine feature (Classic Car Mart) and a copy is in the history file. Receipts are on file for front brake discs, pads and servo, four new tyres, replacement timing belt (2019), air-conditioning re-gas and the wheels were re-furbished. We serviced and MOT tested the Sierra prior to collection and it now returns ready to go. The Cosworth is in exceptional, showroom condition. We'd go as far to say the car is immaculate with exceptional paintwork, perfect clean wheel arches, beautiful straight body panels, absolutely no major blemishes or defects. It's hard to fault the body, it appears incredibly original and its clear the car has led a very sheltered garaged life. The car has had no underside work, its original and as we'd expect a top class low mileage example. The interior is equally as impressive with

Ford Sierra 1989**Price £39,995**

stunning leather upholstery, exceptional dashboard, parcel shelf and carpets. The engine bay is original and stunning, clean and ready for the show scene. The Sierra drives perfectly offering impressive performance, road holding and braking. The car is ready to go, it's a pristine example with excellent paperwork that will not disappoint.
