DESCRIPTION

Golf R32 MKV, 1 owner. This highly desirable, and now very collectable VW Golf R32 4 Motion has had just one registered lady owner from new. The Golf has clearly led a very sheltered life. As expected with a low mileage, one owner unmolested car, it comes with its original spare set of keys, and all handbooks and manuals in its R32 leather bounded folder. A further folder of history is also with the Golf containing invoices, some MOT certificates and we are pleased to confirm the cars original bill of sale is present. The R32 was ordered new in Diamond Black with leather trim with paint protection and was invoiced out at £26,973.99. The Golf has arrived with us in excellent mechanical condition, with current MOT test and will be supplied with a full one year MOT and light service ahead of delivery to its second owner. Further to the service stamps, there are invoices for recent further maintenance that includes a new clutch in early 2022 and a new heater blower in 2021. Tyres have also been recently replaced. On the road the R32 is impressive with fantastic power from the 3.2 litre V6 engine that produces around 250bhp, making it the flagship in the Golf range. Performance figures are strong, acceleration is effortless and the car has a top speed of 155mph and 0-62mph in 6.5 seconds. From 50mph

Volkswagen Golf 2006**Price £16,995**

acceleration is rapid making this is an incredibly fun car to drive, and the more desirable six speed manual gearbox is slick and smooth. It's a wonderful driving machine, steering is precise, suspension for the R32 was lowered by 20mm compared to the standard Golf and stiffer springs and dampers plus upgraded anti roll bars hugely improve cornering. To further enhance the driving experience, the 4Motion four wheel drive and 18 inch alloys ensure there is plenty of grip and assured handling and larger discs improve braking. This is a true hot hatch icon, and in recent years have become very sought after and collectable. The VW presents superbly with stunning, gleaming Diamond Black paintwork, excellent straight bodywork, superb clean alloys and the Black leather trim has been very well cared for and represents this low mileage car well. The impressive interior also is reminder this is the flagship Golf model with its beautiful R embossed Sports seats with electric lumbar adjustment and modern comforts to include dual zone digital climate control with AC, multi stage heated front seats, on board trip computer, automatic lights, traction control, tyre pressure monitoring and its high quality original entertainment system all in place. A future classic, and one to enjoy and look after well to maintain its value and desirability.
